

WHEN KIDS EXHIBIT SYMPTOMS AT SCHOOL

- Isolate student exhibiting symptoms in designated area (follow isolation guidelines).
- Contact parent for student pick-up.
- Strongly recommend contacting a medical provider and COVID-19 viral testing

STAY HOME UNTIL:

Has the individual been tested for COVID-19?

YES

What was the test result?

POSITIVE

1. School to complete and submit reporting form to health department.
2. Keep student in home isolation for a minimum of 10 days with fever resolved for at least 24 hours without the use of fever-reducing medication before returning to school.

NEGATIVE

Student may return to school with proof of a negative PCR test result, provided symptoms have improved and fever resolved for at least 24 hours without the use of fever-reducing medication.

NO

Exclude from school until 10 days have passed since symptom onset and fever resolved for at least 24 hours without the use of fever-reducing medication

OR

Parent has communicated with medical provider, received an alternate diagnosis, and has been cleared to return to school.
